### Also available from Portio Research Limited

Portio Research Ltd is a UK-based research company focussing on the mobile space, providing reports, handbooks, directories and database products.

#### New and Best Selling Reports include:

##### Mobile Messaging Futures 2010-2014:

The highly anticipated fourth edition of our best selling messaging report is now available to order. This new edition is packed with detailed market analysis, traffic and revenue forecasts and a brand new vendor survey. This massive 355-page market study gives you all the data you need for SMS, MMS, mobile e-mail and mobile IM markets worldwide, and includes a BONUS 26-slide Executive Summary presentation. With essential insight into a market that is forecast to be worth USD 233 billion by end-2014, this is one of the most detailed and popular reports ever written on the worldwide mobile messaging market.

Please [click here](#) for more details.

##### Smartphone Futures 2009-2014:

This timely new report examines the changing scenario of the Mobile Handset industry and the exciting emergence of the Smartphone segment, including the evolution of the mobile handset industry and its changing dynamics induced by the growth of smartphone sales and the impact of recession. We also look at the value chain related to products and services pertaining to the Smartphone market, and study key developments in the Smartphone market, highlighting the repositioning of smartphone vendors with the market entry of potential challengers for Nokia and RIM, such as Apple, HTC and more. The report includes an overview of the major Smartphone Operating Systems and the applications market, looking at App Stores and other factors affecting the overall development of the growing high-end handset market.
